"A study on the person and work of the Holy Spirit, third person of the Trinity, in the life of the Christian"--Provided by publisher. This thesis by Gonzalo Haya-Prats,

written in the Catholic interpretive tradition under the supervision of Johannine scholar Ignace de la Potterie at the Gregorian University in Rome, reflects a faith tradition that historically remained open to the miraculous and resisted regulations on activities of the Holy Spirit in the Book of Acts. Accordingly, Haya-Prats interprets the workings of the Spirit from a perspective of narrative sensitivity. He is deliberately diligent to exercise due care so as not to obscure narrative flow and connectivity, despite any ecclesial or interpretive precedents that might be of influence to the contrary. His exegetical method is to let the original meaning be discerned and discovered according to the author's intention as closely as possible. With this sound interpretive approach Haya-Prats achieves a remarkable degree of freshness and insightful vision that all readers of Luke-Acts will welcome. Students and scholars alike should find this timely and thoughtful thesis to be a valuable and long-lasting contribution to New Testament studies. This English edition is made more accessible by including translations of all contemporary foreign languages, and editor Paul Elbert offers occasional explanatory notes that engage current scholarship relevant to Haya-Prats's presentation.

Who Is the Holy Spirit—and Why Do You Need Him in Your Life? After His crucifixion and resurrection, Jesus gave His disciples an assignment to change the world—but told them to wait until the power of the Holy Spirit had come upon them before setting out. His charge to modern-day believers is no different: To do the works that Jesus did (and even greater ones, as He said), it is imperative that we operate from the indwelling power of the Holy Spirit. But Who is this mysterious Third Person of the Trinity? How do we get this power, and what are we to do with it when we receive it? Pat Robertson, founder of the Christian Broadcasting Network and beloved longtime host of The 700 Club, tackles these questions and many others in this, the final book of a life that is now in its ninth decade. Robertson traces the path of the Holy Spirit through both the Old and New Testaments, and shares stories from his own life and that of many 700 Club viewers testifying to how the power of the Holy Spirit has miraculously freed and healed them today. If you want a better understanding of the Holy Spirit and are hungry to know more about the power that is available through Him to every Christfollower today, this book is for you. Derek Prince clearly explains the nature and ways of the Holy Spirit and how He works in the lives of Christians. Through the power of the Holy Spirit, the believer can experience the continual presence of Jesus, become a bold witness for Christ, acquire revelation of the Word of God, pray according to God's will, and understand

the plans of God. As you understand and receive the active presence of the Spirit in your life, you will gain new power and grace for living. The 1873 Modoc War was fierce, bloody, and unjust. This riveting narrative captures the dramatic battles, betrayals, and devastating end, delving into underlying causes and schemes to seize ancestral territory. By April 1870, immigrant demands forced the Modoc onto a crowded, distant reservation with their rivals, the Klamath. Led by a charismatic young chief called Captain Jack, they fled to their original Lost River village. The cavalry countered with a surprise attack on November 29, 1872. Survivors escaped to a natural stone citadel--nearby lava beds--and the most expensive Indian conflict in U.S. history began. The interest of nineteenth-century Lakotas in the Sun, the Moon, and the stars was an essential part of their never-ending quest to understand their world. *The Spirit and the Sky* presents a survey of the ethnoastronomy of the nineteenth-century Lakotas and relates Lakota astronomy to their cultural practices and beliefs. The center of Lakota belief is the incomprehensible, extraordinary, and sacred nature of the world in which they live. The earth beneath and the stars above constitute their holistic world. Mark Hollabaugh offers a detailed analysis of aspects of Lakota culture that have a bearing on Lakota astronomy, including telling time, their names for the stars and constellations as they appeared from the Great Plains, and the phenomena of meteor showers, eclipses, and the aurora borealis. Hollabaugh's explanation of the cause of the aurora that occurred at the death of Black Elk in 1950 is a new contribution to ethnoastronomy. Most of the major black literary and cultural movements of the twentieth century have been understood and interpreted as secular, secularizing and, at times, profane. In this book, Josef Sorett demonstrates that religion was actually a formidable force within these movements, animating and organizing African American literary visions throughout the years between the New Negro Renaissance of the 1920s and the Black Arts movement of the 1960s. Sorett unveils the contours of a literary history that remained preoccupied with religion even as it was typically understood by authors, readers, and critics alike to be modern and, therefore, secular. *Spirit in the Dark* offers an account of the ways in which religion, especially Afro-Protestantism, remained pivotal to the ideas and aspirations of African American literature across much of the twentieth century. From the dawn of the New Negro Renaissance until the ascendance of the Black Arts movement, black writers developed a spiritual grammar for discussing race and art by drawing on terms such as "church" and "spirit" that were part of the landscape and lexicon of American

religious history. Sorett demonstrates that religion and spirituality have been key categories for identifying and interpreting what was (or was not) perceived to constitute or contribute to black literature and culture. By examining figures and movements that have typically been cast as "secular," he offers theoretical insights that trouble the boundaries of what counts as "sacred" in scholarship on African American religion and culture. Ultimately, *Spirit in the Dark* reveals religion to be an essential ingredient, albeit one that was always questioned and contested, in the forging of an African American literary tradition. The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. More and more therapists—those who consider themselves spiritual and those who do not—recognize the value of addressing spirituality in therapy and increasing their skill for engaging it ethically and effectively. In this immensely practical book, Russell Siler Jones helps therapists feel more

competent and confident about having spiritual conversations with clients. With a refreshing, down-to-earth style, he describes how to recognize the diverse explicit and implicit ways spirituality can appear in psychotherapy, how to assess the impact spirituality is having on clients, how to make interventions to maximize its healthy impact and lessen its unhealthy impact, and how therapists can draw upon their own spirituality in ethical and skillful ways. He includes extended case studies and clinical dialogue so readers can hear how spirituality becomes part of case conceptualization and what spiritual conversation actually sounds like in psychotherapy. Jones has been a therapist for nearly 30 years and has trained therapists in the use of spirituality for over a decade. He writes about a complex topic with an elegant simplicity and provides how-to advice in a way that encourages therapists to find their own way to apply it. *Spirit in Session* is a pragmatic guide that therapists will turn to again and again as they engage their clients in one of the most meaningful and consequential dimensions of human experience. The history of the transmission of the biblical text is definitely an empirical subject, for it has left in its trail textual evidence, much of it available for research and evaluation. Thanks to the great advances in philology in general, the discipline of biblical philology has been released from the bonds of religious polemics and has become an important tool for straightforward, literal interpretation, with Protestant researchers leading the way. Revealing the Holy Spirit in Humans: Stories from the Bible is meant to be a continued adherence to the popular historical interpretation of the sanctity of the Holy Spirit in particular and not as a disregard for the available textual evidence in the contemporary Christian doctrine. The theme in the book is to convey that Jesus gave the Holy Spirit as a compensation for his absence, to perform the functions to advance our goals, which he would have done if he had remained personally with us. An exploration has been made of the presence of the Holy Spirit in our daily lives starting with the church, the congregation and the composition of its human talents, and the personalities and the circumstances in which we find ourselves. In the process, I have been compelled to apply imaginative emendation to the question of life after death. This book is intended to provide a foundation for Bible study by groups and persons interested in Christianity. Written at an accessible level, Berding speaks to a wide audience as he seeks to connect readers to the life of the Spirit. His practical guide covers a variety of topics, showing readers how to set their minds on the things of the Spirit, put to death the deeds of the body, be led by the Spirit, know the fatherhood of God, and hope and pray in the Spirit. A survey of scholarship on the pneumatology of the Apocalypse is followed by a study of intertextual connections. The author's own religious context within Pentecostalism then informs a possible hermeneutic that is faithful to the ethos of the movement. Biblical and literary studies are situated within the context of a Pentecostal community as attention is paid to the prophecy concerning the temple and the witnesses in Rev 11. This key passage is shown to form the theological as well as the literary centre of the Spirit's role in Revelation. Twenty-two lifelines to personal growth and fulfillment from the editor in chief
