1. Cost Accounting : Meaning, Importance and Evaluation, 2 .Elements of Cost and Their Classification, 3 .Service/Operating Costing, 4. Marginal Costing and Absorption Costing , 5. Differential Cost Analysis, 6. Recent Development in Cost Accounting, 7. Accent Development in Cost Accounting , 8. Cost Audit. Description: Intended primarily as a text for the undergraduate students of commerce, this book gives a comprehensive and indepth analysis of the concepts and principles underlying financial accounting. It also introduces the student to the tools and techniques essential for tackling real-life problems. The text discusses in detail final accounts, branch accounting, hire-purchase and instalment sales, partnership accounts, stock valuations, as well as other company accounts. The book would be of considerable help to the readers in preparing financial statements and would equip them with the necessary knowledge in understanding the financial performance and the financial position of an organization and communicate these to its stakeholders. Besides students of commerce, those appearing for various professional examinations such as CA and ICWA foundation courses should find this student-friendly and accessible book extremely useful. An excellent book for commerce students appearing in competitive, professional and other examinations. 1. Responsibility Accounting, 2. Business Budgeting, 3. Budgetary Control, 4. Contemporary Issues in Management Accounting, 16. Management Information System and Reporting to Management , 17. Divisional Performance Measurement. This book introduces and examines what is currently the most central and controversial area in financial reporting. It is designed so that readers with particular interests can easily find their way through clearly marked sections. As the centre of world economic development has shifted towards Asia over the last two decades, many Asian countries have witnessed rapid growth in economic and business operations. In light of these recent changes, accounting has played a significant role in assisting economic transition and advancement in Asian countries. However, although the general trend over recent decades towards convergence in financial reporting standards and practices has dramatically improved the comparability of accounting information, considerable variances remain in practices between countries. This Handbook therefore provides an up-to-date review of contemporary accountancy across Asia, illustrating how standards have been reshaped to accommodate the needs of economic and social trends. As well as providing an overview of standards in the larger Asian economies of China, India and Japan, contributions to the Handbook also include studies of countries such as Sri Lanka, Nepal, Cambodia and Mongolia. In particular, this Handbook analyses: financial accounting and reporting management accounting auditing and accounting professionalization governmental and public-sector accounting accounting education accounting development in Asian emerging economies The Routledge Handbook of Accounting in Asia offers students, academics, regulators and practitioners an essential reference guide to the current scholarship and practice in the field of accountancy in Asia. It will be a useful resource in particular for students of accountancy, business studies and Asian studies. Most small business owners learn early on that it's much cheaper to do their own books (alone or with the assistance of a bookkeeper or accounting clerk) and have them reviewed by an accountant than to have a CPA on staff. With a steady supply of entrepreneurs opening new businesses, there's a real need for a one-stop accounting reference busy owners, bookkeepers, and accounting clerks can use to access the specific information they need quickly and accurately. Accounting at Your Fingertips, Second Edition, helps readers pinpoint the precise information they need on any accounting topic without wasting time. Divided into concise but complete bites that are easy to find and easy to understand, Accounting at Your Fingertips, Second Edition, covers all topics related to the monthly accounting process. Based on the notion that time is the scarcest commodity of all, this book is organized to allow readers the shortest path to the information they need, including: - Organization and proper accounting procedures. - Creating a chart of accounts and balance sheet accounts. - Posting accounts to the general ledger. - Reporting assets and expenses. - Handling receivables, payroll, and cost of goods and services. - Posting salaries, wages, and payroll taxes. - End-of-month accounting tasks and procedures. - Producing balance sheets, profit and loss statements, and end-of-year payroll reports. Closing the books at the end of the year. Cost Accounting 1. Cost Accounting—Meaning, Importance and Evaluation, 2. Elements of Cost and their Classification, 3. Materials Control and Valuation, 4. Labour Cost Control, 5. Expenses/Overheads, 6. Overheads—Machine-Hour Rate, 7. Single or Unit or Output Costing, 8. Calculation of Tender Price or Quotation Price, 9. Production Account or Manufacturing Account, 10. Contract Costing, 11. Process Cost Accounting, 12. Reconciliation of Cost and Financial Accounts. Management Accounting 1. Business Budgeting, 2. Budgetary Control, 3. Marginal Costing and Absorption Costing, 4. Break-Even-Point or Cost Volume Profit Analysis, 5. Standard Costing and Cost Variance Analysis, 6. Decision Accounting and Marginal Costing System. SYLLABUS Unit I : Introduction : Meaning, Objectives and Advantages of Cost Accounting, Difference between Financial, Cost and Management Accounting, Cost Concepts and Classifications, Role of Cost Accountant in an Organization.
