www.childrens-books-bilingual.com Aramaic is now recognised throughout the world as the language spoken by Christ and the Apostles. Contrary to popular belief, however, it is very much a 'living' language spoken today by the Assyrian peoples in Iran, Iraq, Syria and Turkey. It is also heard in Assyrian emigre communities of the US, Europe and Australia. Modern Aramaic or Assyrian is made up of a number of dialects. The two major ones are Swadaya (Eastern) and Turoyo (Western). This unique dictionary and phrasebook incorporates both dialects in a way that illustrates the differences and gives the reader a complete understanding of both. The dialects are presented in an easy-to-read romanised form that will help the reader to be understood. BABADADA dictionaries are visual language education: Simple learning takes center stage. Kurdish began to appear in writing in a version of the Persian alphabet during the 7th century AD. However, for much of their history, the Kurds have preferred to use Arabic, Persian or Turkish for their literary works. Since 1932 Kurdish has been written with the Latin alphabet in Turkey and Syria. Before then, it was written with a version of the Arabic script. In parts of the former USSR it is written with a version of the Cyrillic alphabet, and in Soviet Armenia it was written with a version of the Armenian alphabet. When Kurdish is written with the Arabic script, Arabic loan words retain their original spelling, though they are often pronounced quite differently in Kurdish. This dictionary uses the latin script and the Northern Kurdish (Kurmanji) dialect. It contains over 12,000 words in English and Kurmanji with parts of speech and definitions in English with a Kurmanji / English index included. It is excerpted from our Words R Us system which is a derivative of Princeton Wordnet. We also publish a Turkish / Kurdish / English Dictionary and a

Kurdish Dictionary in the Sorani script as well as books on Kurdish Grammar. See our website for availability. www.wordsrus.info

It is my goal to accurately reflect the language as it exists today, providing variant spellings, synonyms, and regional

[...] It is my goal to accurately reflect the language as it exists today Cherokee is a Southern Iroquoian language now spoken by around 22,500 people in North Carolina, Oklahoma, and Arkansas. In 2005, the Cherokee Preservation Foundation funded a survey whose results indicated that only 460 fluent speakers were then living in Eastern Cherokee communities, with 72 percent of them over the age of 50 and elder speakers dying far more quickly than new speakers were emerging. By 2015 that number was down to 215. The process of revitalizing the

language is complex. While it has been spoken for hundreds of years, there is little in written form that can be used for instruction and few people are trained in teaching it. Cherokees are the only Native American People who possess a writing system equivalent to the European alphabet. The Cherokee syllabary is the only alphabet in history attributed to be the work of one man, George Gist, known to the world as Sequoyah. Although he did not speak or read the English language, he understood the power of the written word. At first Sequoyah experimented with a writing system based on logograms, but found this cumbersome and unsuitable for Cherokee. He later developed a syllabary which was originally cursive and hand-written, but it was too difficult and expensive to produce a printed version, so he devised a new version with symbols based on letters from the Latin alphabet and Western numerals. After twelve years of dedicated work, Sequoyah finished the Cherokee syllabary in 1821. He spent the rest of his life teaching his people how to read and spell. By 1820 thousands of Cherokees had learned the syllabary, and by 1830, 90% were literate in their own language. Books, religious texts, almanacs

and newspapers were all published using the syllabary, which was widely used for over 100 years. Today the syllabary is still used; efforts are being made to revive both the Cherokee language and Syllabary. Increasing numbers of Cherokee descendants are renewing their ties with their traditions, history and language. With this renewal comes the understanding that their Cherokee heritage must be preserved and passed on to the next generation. Cherokee courses are offered at a number of schools, colleges and universities. This dictionary contains over 5,000 English terms with their Cherokee translation and transliteration. It also includes a Cherokee / English index. We also publish a Spanish / Cherokee Dictionary and an English / Cherokee Phrasebook.
