Now, I must go to Hunter on my hands and knees to beg him to save my brother's life. I'll pay any price to save him. I'll do anything Hunter wants. Anything... The Bad Boy Series by S. E. Lund's is a sexy new novella series, featuring a bad boy with a heart of gold and a heroine who can't get him out of her life or her heart. When Fate forces them back together again, can they deny what has long simmered between them? From the New York Times bestselling author of *The Gutsy Girl* comes this provocative, compelling novel of irrevocable consequences for people thrust unwittingly into a devastating war of nations and American identity—based on a little-known true event. December 1941. The inhabitants of Niihau lead a simple life. Mostly Hawaiian natives, they work the ranch of Niihau's eccentric haole owner, who keeps his island totally isolated from the outside world, devoid of cars, phones, and electricity. But then a plane crash-lands there, and although the villagers rescue the pilot, they have no idea that he has just attacked Pearl Harbor. War has now come to Eden, slowly undoing its tranquillity, widening the cracks in the already troubled marriage of Irene and Yoshio Harada, the island's only Japanese-American couple. It will test everyone's loyalties and all they believe in . . . as Paradise, once within reach, slowly falls victim to its own isolated innocence. A lone inventor and the story of how one of the most revolutionary inventions of the twentieth century almost didn't happen. Introduced in 1960, the first plain-paper office copier is unusual among major high-technology inventions in that its central process was conceived by a single person. Chester Carlson grew up in unspeakable poverty, worked his way through junior college and the California Institute of Technology, and made his discovery in solitude in the depths of the Great Depression. He offered his big idea to two dozen major corporations -- among them IBM, RCA, and General Electric -- all of which turned him down. So persistent was this failure of capitalistic vision that by the time the Xerox 914 was manufactured, by an obscure photographic-supply company in Rochester, New York, Carlson's original patent had expired. Xerography was so unusual and nonintuitive that it conceivably could have been overlooked entirely. Scientists who visited the drafty warehouses where the first machines were built sometimes doubted that Carlson's invention was even theoretically feasible. Building the first plain-paper office copier -- with parts scrounged from junkyards, cleaning brushes made of hand-sewn rabbit fur, and a built-in fire extinguisher -- required the persistence, courage, and imagination of an extraordinary group of physicists, engineers, and corporate executives whose story has never before been fully told. Copies in Seconds is a tale of corporate innovation and risk-taking at its very best. The left hand plays both melody and accompaniment in this late intermediate piano solo for one hand. This dreamlike piece begins in the key of A minor and moves through various

tonalities before ending on a C major arpeggio. A Federation Festivals 2014-2016 selection. To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, Your Secret Not Admirer Come home to 59 Memory Lane with a new novel from the top Kindle and USA Today bestselling author Celia Anderson! How to Lose a Guy in Ten Days meets Accidentally on Purpose by Jill Shalvis in this head-over-heels romantic comedy. In this scholarly yet highly accessible work, Eva Hemmungs Wirtén traces three main themes within the scope of cultural ownership: authorship as one of the basic features of print culture, the use of intellectual property rights as a privileged instrument of control, and finally globalization as a pre-condition under which both operate. Underwritten by rapid technological change and increased global interdependence, intellectual property rights are designed to protect a production that is no longer industrial, but informational. No Trespassing tells the story of a century of profound change in cultural ownership. It begins with late nineteenth-century Europe, exploring cultural ownership in a number of settings across both spatial and temporal divides, and concludes in today's global, knowledge-based society. Wirtén takes an interdisciplinary and international approach, using a wide array of material from court cases to novels for her purposes. From Victor Hugo and the 1886 Berne Convention, to the translation of Peter Høeg's bestseller Smilla's Sense of Snow, Wirtén charts a history of intellectual property rights and regulations. She addresses the relationship between author and translator, looks at the challenges to intellectual property by the arrival of the photocopier, takes into account the media conglomerate's search for content as a key asset since the 1960s, and considers how a Western legal framework interacts with attempts to protect traditional knowledge and folklore. No Trespassing is essential reading for all who care about culture and the future regulatory structures of access to it. "Albert makes a deeper and more sensitive investigation into what love is than most romances." --New York Times Book Review on Conventionally Yours Winning and losing are subject to sexy interpretation... Navy chief Calder Euler loves to win big. His latest score? A remote mountain cabin. Checking it out is supposed to be a quick trip, but Calder's luck abruptly turns when a freak injury and a freakier snowstorm leave him stranded. Oh, and the cabin isn't empty. A silver fox caring for two young girls claims that the property is his, but Calder's paperwork says otherwise. Felix Sigurd is on a losing streak, and his ex-husband risking the cabin in a reckless bet is only the latest in a series of misfortunes. He'll tolerate the handsome stranger for a couple nights--even care for his injuries--but that's it. Calder doesn't know a damn thing about kids, but making pancakes for Felix's girls is a surprising delight. Trapped in the cabin, the four of them slip easily into the rhythms of a family. But when the ice melts, they'll have to decide if a future together is in the cards. Shore Leave Book 1: Sailor Proof Book 2: Sink or Swim From Mary Blayney, the acclaimed author of Stranger's Kiss, comes this irresistible new novel of historical romance featuring the Pennistan family. In Courtesan's Kiss, an independent woman is determined to make her way in the world—even if it's a scandalous one. But first she must escape a nobleman with plans of his own In the wake of a broken engagement and shunned by the ton, Mia Castellano does not retire to the country, as a proper young lady might, but sees her chance to escape society's restraints—by becoming a courtesan. In her mind, no unmarried young woman is as free as a courtesan. She alone controls her destiny: managing her own money, having her own house, choosing her lovers. There's only one obstacle in Mia's path—Lord David Pennistan. As a favor

to his brother, Lord David agrees to escort Mia to his family's home in Derbyshire, where her guardian awaits. Mia attracts nothing but trouble from the outset of their journey, yet with every adventure they share, Lord David's desire for his charge grows. When they're caught in a compromising situation, Lord David insists that she marry him. But there's only one thing Mia wants from David, and it isn't his charity or his title. Can he convince her before it's too late that the love she wants is already hers—to take or to lose forever? Can he win more from this untamed beauty than just a courtesan's kiss? In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century. Spanning more than two centuries in Ireland, *Castle on the Rise* unites the legacy of three women who must risk mending their broken places for life, love, and the belief that even through the depths of our pain, a masterpiece of a story can emerge. When Laine Forrester travels overseas to attend her best friend's vineyard wedding, she expects to find the bride on the brink of a fairy-tale life. But after a series of unforeseen setbacks, it seems the storybook lives they'd imagined are suddenly ripping apart. With hopes of resurrecting a happy ending, Laine agrees to accompany the newlyweds to the groom's home in Ireland—never expecting she'd be the one drawn in by its wide-open moors, backroads bordering the Irish Sea, and a mysterious castle that dares to keep its secrets hidden. From the storied streets of Dublin to the shores of the Emerald Isle, Laine is drawn in to the land and its rich history. The castle ruins whisper stories of Issy—a photojournalist battling through the 1916 Easter Rising, and Maeve—the castle's lady of legend, fighting for survival through the 1798 rebellion that started it all. He taunts me for being a good girl and mocks my high standards. He's cruel, crass, and has enough confidence to last two lifetimes. And I hate him. It wouldn't matter so much if he were avoidable. But considering he's my older brother's best friend and roommate, I see him more than I'd ever want to. His sculpted abs and gorgeous eyes are wasted on such an arrogant man, which makes me hate him even more. Even though I've had a crush on him since I was ten, the feelings weren't mutual and he's always made that very clear. He's always loved getting under my skin and one night against my better judgment, I let him in my bed. I've succumbed to his manwhore ways, but that doesn't change a thing. **"Charley Ellis has written a magnificent portrait, capturing the indomitable spirit of Joe Wilson and his instinctive understanding of the need for and commercial usefulness of a transforming imaging technology. Joe Wilson and his extraordinary team, which I had the good fortune to first meet in 1960, epitomized the wonderful observation of George Bernard Shaw who said, 'Some look at things that are, and ask why? I dream of things that never were and ask why not?' Xerox and xerography are not only a part of our vocabulary, but part of our everyday life. Charley Ellis gives the reader a poignant understanding of just how this happened through the life, adventures, critical business decisions, and dreams of Joseph Wilson and a cadre of remarkable individuals. This book will surely join the library of memorable biographies that capture the building of America into a risk-tolerant, technologically sophisticated, idea-oriented society that thrives by understanding what Charles Darwin really said: 'Survival will be neither to the strongest of the species, nor to the most intelligent, but to those most adaptable to change.'" —Frederick Frank, Vice Chairman, Lehman Brothers Inc. "This heartfelt, witty addition to women's fiction will appeal to fans of Elizabeth Berg and Anna Quindlen." (Booklist) Georgia Waltz has things many people only dream of: a plush Manhattan apartment overlooking Central Park, a Hamptons beach house, valuable jewels and art, two bright daughters, and a husband she adores, even after decades of marriage. It's only when Ben suddenly drops dead from a massive coronary while training for the New York City Marathon that Georgia discovers her husband—a successful lawyer—has left them nearly penniless. Their wonderland was built on lies. As the family attorney scours emptied bank accounts, Georgia must not only look for a way to support her family, she needs to face the revelation that Ben was not the perfect husband he appeared to be, just as her daughters—now ensconced back at home with secrets of their own—have to accept that they may not be returning to their lives in Paris and at Stanford subsidized by the Bank of Mom and Dad. As she uncovers hidden resilience, Georgia's sudden midlife shift forces her to consider who she is and what she truly values. That Georgia may also find new love in the land of Spanx and stretch marks surprises everyone—most of all, her.

Sally Koslow's fourth novel is deftly told through the alternating viewpoints of her remarkable female protagonists as they plumb for the grit required to reinvent their lives. Inspiring, funny, and deeply satisfying, *The Widow Waltz* explores in a profound way the bonds between mothers and daughters, belligerent siblings, skittish lovers, and bitter rivals as they discover the power of forgiveness, and healing, all while asking, "What is family, really?" For two tiny, bewildered people, it was a struggle for survival in a world of toys.

This book proposes a revisionist approach to democratic politics. Yaron Ezrahi focuses on the creative unconscious collective imagination that generates ever-changing visions of legitimate power and authority, which compete for enactment and institutionalization in the political arena. If, in the past, political authority was grounded in fictions such as the divine right of kings, the laws of nature, historical determinism and scientism, today the space of democratic politics is filled with multiple alternative social imaginaries of the desirable political order. Exposure to electronic mass media has made contemporary democratic publics more aware that credible popular fictions have greater impact on shaping our political realities than do rational social choices or moral arguments. The pressing political question in contemporary democracy is, therefore, how to select and enact political fictions that promote peace and how to found the political order on checks and balances between alternative political imaginaries of freedom and justice. The war is over and blackouts are a thing of the past, except in the village of Melchester, where the local council has refused to sully its streets with unsightly lamps. The night is pitch black, but hardly quiet. Young lovers are rendezvousing, a police constable is helping himself to a few of his neighbor's partridges, and a poet is going to visit his beloved, a new verse on his lips. She will never hear it, sadly, for the young man is stopped along his way

– stopped forever, by the tight grip of the garrote. The local constabulary wastes no time reaching out to Scotland Yard, which sends its best man: the easygoing detective-inspector Littlejohn. In Melchester he will find unspeakable secrets – and one citizen whose soul is as dark as the village night. It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.
