principal's role has shifted to instructional leader, requiring shifts in the principal supervisor's role. The purpose of this study was to determine if principal supervisor instructional leadership practices affected student learning and school culture. The researcher analyzed extant data of high, average, and low performing schools to determine which principal supervisor practices impacted student learning in literacy and numeracy over the course of the school year and which impacted school culture. Seven of eight practices were higher for the higher performing schools, showing

impact. This study contributed to the practices of principal supervisors and central office leadership.
