Parkin trains students to think like economists by offering a clear introduction to theory and applying the concepts to today's events, news, and research. From our global food shortage to global warming, economic issues permeate our everyday lives. Parkin brings critical issues to the forefront. Each chapter begins with one of today's key issues, and additional issues appear throughout the chapter to show the real-world applications of the theory being discussed. When the chapter concludes, students "read between the lines" to think critically about a news article relating to the issue, demonstrating how thinking like an economist helps make informed decisions. 0132950960 / 9780132950961 Macroeconomics Plus NEW MyEconLab with Pearson eText Package consists of

Hardy and the Novel includes seven poems by Hardy that provide greater insight into his ethos; selections from Michael Millgate's biography of Hardy that depict the relationship between episodes in *Tess of the D'Urbervilles* and events in the author's life; and excerpts from Grindle and Gatrell's introduction to the 1983 edition that discuss Hardy's revision process in both manuscripts and early printed editions of the novel.
