**Mindfulness** Mar 08 2022 The mind contains the seeds of its own awakening—seeds that we can cultivate to bring forth the fruits of a life lived consciously. Exquisite in detail yet wholly accessible and relevant for the modern student, Mindfulness takes us through a profound study of: • Mindfulness of body, including the breath, postures, activities, and physical characteristics • Mindfulness of feelings—how the experience of our sense perceptions influences our inner and outer worlds • Mindfulness of mind—learning to recognize skillful and unskillful states of mind and thought • Mindfulness of dhammas (or categories of experience), including the Five Hindrances, the Six Sense Spheres, and the Seven Factors of Awakening "There is a wealth of meaning and nuance in the experience of mindfulness that can enrich our lives in unimagined ways," writes Goldstein.
