TCRP Report 94: Fare Policies, Structures and Technologies: Update identifies, describes, and evaluates key fare structures, policies, and technologies that are being considered by transit agencies, with a focus on their impact on customers, operations management, and effective and equitable fare integration. The report includes data on fare structures, policy-making procedures, and ongoing efforts to implement fare technology. This report provides guidance on making decisions related to fare policies, structures, and technologies. It includes practical information that can be readily used by transit professionals and policy makers in fare-related planning and decision making. This report updates information presented in TCRP Reports 10 and 32 and presents the latest developments and research results related to fare policy and technology issues. Nico ha ventotto anni, un lavoro da deejay in una radio, un discreto successo con le donne, una vita tutto sommato felice. Ma si sente immaturo, un adolescente intrappolato nel corpo di un adulto... L'autrice nasce in Germania, dove vive un'infanzia felice, ma dopo la separazione dei genitori viene costretta a trasferirsi in Sicilia con la madre. Per fare chiarezza, soprattutto a se stessa, sui rapporti uomo-donna dal punto di vista psicologico, mette insieme una serie di interviste a donne single, uomini single, coppie, donne sposate, uomini sposati, amanti, nonché lunghe istruttive chiacchierate tra donne, spietate nella descrizione delle loro quanto mai pittoresche esperienze sessuali. Tutto in chiave ironica e dissacrante. Quello che ne risulta è la constatazione che "" l'uomo ideale"" esiste, ma che spesso ci si accontenta di quello che capita, e che non sono i maschi quelli da combattere ma il maschilismo. Vols. 19- include the Proceedings of the Association's 12-27th annual conventions. The purpose of this synthesis was to document the past and current experiences of public transit agencies that have planned, implemented, and operated fare-free transit systems. The report concentrates on public transit agencies that are either direct recipients or sub-recipients of federal transit grants and provide fare-free service to everyone in their service area on every mode they provide. The report will be of interest to transit managers and staffs, small urban and rural areas, university, and resort communities, as well as stakeholders and policy makers at all levels who would be interested in knowing the social benefits and macro impacts of providing affordable mobility through fare-free public transit. A review of the relevant literature was conducted for this effort. Reports provide statistics on changes in levels of ridership associated with fare-free service. White papers or agency reports identified by the topic panel or discovered through interviews with fare-free transit managers were also reviewed. Through topic panel input, Internet searches, listserv communications, and APTA and TRB sources, the

first comprehensive listing of public transit agencies that provide fare-free service in the United States was identified. A selected survey of these identified public transit agencies yielded an 82% response rate (32/39). The report offers a look at policy and administrative issues through survey responses. Five case studies, achieved through interviews, represent the three types of communities that were found to be most likely to adopt a fare-free policy: rural and small urban, university dominated, and resort communities. Vols. 25-34 include Official manual of the International Brotherhood of Paper Makers. The Arthurian Archives series of texts and editions in translation, edited by Norris J. Lacy, makes a start on Italian Arthurian material, with a 14c Tristan text. This is the first critical edition with English translation of the prose compilation *Tristano panciatichiano*, preserved in a unique manuscript in the Biblioteca Nazionale of Florence (MS Panc. 33); it is the first time the Italian text has been published in its entirety in any form. Assembled by the mid-fourteenth century, the manuscript is an original compilation in Italian based on several French models: the *Queste del San Graal*, *Josephd'Arimathie*, the *Mort Artu*, and notably, the *Roman de Tristan en prose*. While the edition itself will be of great interest, the translation into English is a major opportunity for Arthurians and other medievalists, and furnishes important new evidence for the study of Arthurian material in Italy. Apparatus includes a finding list of Arthurian manuscripts produced, owned or read by Italians; a select bibliography; and an index of proper names found in the narrative.
